

Keiro®

Older Adults. Caregivers. Community.

OUR MISSION

*To enhance the quality of
senior life in Our Community*

OLDER ADULTS. CAREGIVERS. COMMUNITY.

Founded in 1961, Keiro enhances the quality of life for older adults and their caregivers in the Japanese American community of Los Angeles, Orange, and Ventura counties. Keiro provides a range of culturally-sensitive programs and resources, in both English and Japanese, to meet the evolving needs of our aging community. In everything we do, we advance our mission through a person-centered, innovative, and collaborative approach.

OLDER ADULTS

Keiro empowers older adults to explore different elements of their quality of life through in-person and virtual Quality of Life classes that are hosted throughout the year. These classes, our annual Keiro no Hi Festival, and other programs ensure that older adults have opportunities to learn, be active, and be valued members of Our Community.

CAREGIVERS

Keiro supports community caregivers who care for their loved ones. From preparing the next generation of caregivers for the journey ahead, to hosting its annual Caregiver Conference for caregivers already on their caregiving journey, Keiro provides resources, validation, and support to all of the caregivers within Our Community.

COMMUNITY

To strengthen community-based, culturally-sensitive programs and services, Keiro collaborates with various organizations through our Grants Program, Nikkei Senior Network, and strategic partnerships such as ClubGenki.

Keiro also continues to support local senior residential facilities serving the Japanese American community by providing engaging cultural activities and events for residents.

IYASHI CARE

Through an innovative collaboration between Keiro and Providence, Iyashi Care offers palliative care for Japanese American and Japanese older adults with serious illnesses. Our bilingual team of health care professionals provides an extra layer of support for both patients and their families as they pursue the best possible quality of life alongside treatment.
